Innamorato della pelle, nel 2015 ho iniziato a giocare , creare dal niente, i miei primi progetti.

Veder prendere forma un qualcosa sperimentando e senza demordere davanti agli ostacoli, mi hanno permesso di trasformare la mia passione in un lavoro.

Borse ed piccola pelletteria HANDMADE. Partendo da un'idea che man mano prende forma; il taglio della pelle, l'assemblaggio la cucita a mano, tutto fatto da me nel mio piccolo laboratorio.

Ogni prodotto che creo mi viene commissionato dal cliente; insieme decidiamo i pellami ed i vari dettagli, dal filato alla finitura della metalleria, arrivando infine alla nascita di una borsa unica e personale.

In love with leather, in 2015 I started playing and creating from nothing,my first projects.

To see something take shape by experimentation without giving up before obstacles, allowed me to turn my passion into a job.

Handmade bags and small leather goods . Starting from an idea that gradually takes shape; cutting the leather, assembling it hand-sewn, in my small workshop.

Every product I create is commissioned by the customer; together we decide on the leather and the various details, from the yarn to the finishing of the metal hardware, finally arriving at the creation of a unique and personal bag.
